THE MONROE DOCTRINE.

Unexpectedly and from a new quarter, the old feeling of jealousy and apprehension on the part of European aggression on American soil is revived. The reports of the session to the German Empire of Porto Rico by Spain have naturally awakened attention.

The succession is said to be in consideration of the recognition of the Spanish republic by the Empire. It strikes us as a costly price to pay for a piece of international stability—a price that Spain can ill afford to pay, and one that it ill becomes a great and magnanimous nation to exact.

But Germany, under its Prussian leadership, is ambitious, grasping, relentless in its march to universal dominion, and hence the cause of anxiety so naturally felt on this side of the water. Abstractly considered, and regarding Porto Rico as an insular position, the theorist of the Monroe doctrine would not seem to apply. And under the indolent and insufficient sway of Spain, the island might have lain forever, like a log on the water, inert and innocent of causes of alarm. But in the hands of a other race, electrified by the energies of newly developed power, fired with insatiable ambitions and bristling with menace to every nation that stands in the way of her progress, the establishment of a foothold on this side of the Atlantic is a real cause of alarm. Steam brings Porto Rico to our very doors. Our ports may be plied under the guns of the Island. Our commerce may be made an easy prey to her cruisers.

The diversion of any of the West India Islands from their present sovereignty ought to be resisted by the American Government. Not an additional obstacle should be suffered to grow up to the commerce of the Gulf. The vast trade of the South and West cannot exist under any such method. It is not to be doubted that the whole people would sustain the cause of our government in this case. It is a position in which it is clearly in the right. Its duties to the North and to the South, to the East and to the West, demand that it shall repel all such encroachments. It is compelled to act from the very instinct of self-preservation. The hold of Germany in such a vital point would be a grip that could be made to throttle the life of the nation, a menace to its liberties, or dictation in its internal affairs, and certainly a most dangerous surveillance over the freedom of the seas, and impudent interference with our commerce.

We hope the government will speak with determined voice.

NOTHING SUCCEEDS SO WELL AS SUCCESS.—Brooker sums up the testimony that has been produced against him, and refutes the whole of it, to the delight of his friends—covers himself now with glory, and goes to his Peekskill farm in the hills, to "air away" the annoying misnomer which has enveloped his fair name for the past few weeks. Brooklyn glories in the conscious pride that for weeks she has had the *distinction* of American society standing on tip toe with eyes, ears and mouth open to catch every new phase of interest which this big scandal might develop, but she must look well to her laurels. Chicago chafes under the widespread excitement which this big scandal has produced, and she is to be heard from yet. Well we take a long breath of relief, and will here express the hope that the press of the South and especially of North Carolina, will find something more beneficial and more congenial to the refined taste of our people with which to load their columns, than the purrid filth which clogs the system of Northern society.

We clip the above from the *Ansonian*. That paper concurs with our determination scrupulously to avoid notices of a topic which has agitated Northern Society to its centre. We will not give currency to what is an insult to morality, to decency and to religion. We have that respect for the refinement and the purity of our readers, that we will not insult them by the suggestions of evil. We have among no imitators of that society which feeds its enjoyments in the excitement of social scandal, and the exposure of scantly gifts. Those who desire to know how far Northern society is debased, how much religion is insulted, must look for it in other columns than these.

THE THIRD TERM.

The Republican Convention of Pennsylvania seems to have put a quietus to the ambition of Grant as far as the republican party of the North is concerned. The voice of Pennsylvania is by no means insignificant in formulating the action of the North. In fact it is entitled to unusual weight, since the rebuke to Grant is accompanied with the insult of presenting as the choice of Pennsylvania for the next Presidency the name of Hartsuff, the hanger-on of Mrs. Surratt. Could reproach be more telling?

The democratic need be in no hurry to

commit themselves, need make no haste to form alliances with the wings of the opposition. The victories which have crowned their efforts this year, in New Hampshire and Connecticut, in Oregon, in Kentucky, Tennessee and North Carolina, in the North and the South, in the East and the West, show an increasing popular influence which will make them masters of the situation, and enable them to dictate instead of to bargain.

Let them be patient and bide their opportunity.

MR. GEORGE V. STRONG.

We clip the following from the Raleigh Crescent in reference to this gentleman. The suggestion that he be made Speaker of the House is a natural one in view of his powerful instrumentality in revolutionizing Wake county, and the importance of that revolution can not be overestimated. It crushed in the key-stones of radicalism in the State, and the fabric has toppled to ruin:

"Because of his recognized ability, we expect him to exert a considerable influence in the Assembly. Indeed his name has already been suggested by some who know his strength for the position, in connection with the Speakership of the House. Should he be chosen to preside over the deliberations of that body, it will be a handsome compliment to Wake county and a just return for the services of Col. Strong in the late canvass. It would be a proper acknowledgment of his exertions, as well as a happy result of our great political victory in this county. He would discharge the duties of Speaker, we are assured, satisfactorily to all, and creditably to the State.

There are disturbances now the Danville Times all over the South at the present time. We have before us an account of an anticipated fight between the whites and blacks at Ridge's Spring, Edgefield, South Carolina. Both "parties" were arming for the fray. The feeling was prevalent that a war of races would begin in South Carolina. In that event it is said, the white people of Georgia on the Savannah river, will go to the rescue of the white people of South Carolina.

Gen. Grant could, if he would shoo this state of affairs, in a measure; but, things have got to that pass now, that nothing short of a change of the laws with regard to the privileges of the blacks, can prevent repeated outbreaks. The terrible blunder committed by the radical party, is beginning to tell fearfully upon the country.

While sympathizing with our unfortunate brethren of the South, let us thank our maker that we in this and the adjoining State of North Carolina, are comparatively free from the disturbances which are almost of daily occurrence in the Gulf States, and impudent interference with our commerce.

We hope the government will speak with determined voice.

KENTUCKY TOBACCO CHOP.

Louisville, Aug. 16.—The Courier Journal to-day publishes reports from correspondents in fifty counties of Kentucky, representing seventy-five per cent. of the tobacco crop of the entire State, which indicate an unparalleled failure of the crop. From the aggregate evidence it is inferred, that under the most favorable future conditions, the crop of 1874 will be only thirteen per cent. of the average annual yield.

General good crop news from all parts.

BLOODY WORK IN GEORGETOWN SOUTH CAROLINA.

BEAUTIES OF RADICAL REFORMATION.

A DESPERATE FIGHT BETWEEN THE TWO WINGS OF THE PARTY.

A gentleman, says the *Charleston News*, who arrived in the city from Georgetown, gives us the following particulars of a bloody riot which occurred in that town on Wednesday last. The great unwashed constituency of the country are about evenly divided into two factions, one, led by W. H. Jones, the negro State Senator, and the other by Jas. Bowley, the negro Chairman of the Ways and Means Committee in the last House of Representatives. The war between these two worthies, both of whom go in heavily for reform, has been waged with bitter enmity for some time. On Wednesday it culminated in a bloody riot, which was still in progress when our informant left. It seems that a negro congressman had been called to nominate delegates to the Republican county convention, which meets in Georgetown on Tuesday next. Jones and Bowley had their adherents present in full force, and, as is usual in Republican conventions, a dispute arose from the very outset upon the question of electing a chairman. Upon this important point the now reformers could not agree. The dispute was between a West India negro, named R. M. Heriot, who goes by the sobriquet of Upper Top, and who is one of the shining lights of the Jones wing of the reformers, became exceedingly noisy and demonstrative. This provoked the ire of one of Bowleyites, who forthwith drew out a pistol and presented to empty contestants of it into the ear of the obnoxious Upper Top. His victim was not very severe, however, and the first shot missed his intended destination and mortally wounded a man who was standing near. Another Bowleyite, however, made a dead set upon the unfortunate Upper Top and laid him out with a chair. His example was speedily followed by the other Bowley reformers, one of whom pulled out his pistol and emptied its contents into the skull of another Jones negro, whose name is not known. While this mild by-play was going on Bowley, who was present, kept well in the background, and out of harm's way. Jones was not present at all. These little eccentricities had the effect of destroying the harmony of the meeting, which broke up in a row. The delegates made a bolt for the street, and when our informant left there was a fair prospect of a bloody fight.

Gen. Grant could, if he would shoo this state of affairs, in a measure; but, things have got to that pass now, that nothing short of a change of the laws with regard to the privileges of the blacks, can prevent repeated outbreaks. The terrible blunder committed by the radical party, is beginning to tell fearfully upon the country.

Miss John Kerr.

Her W. of the Hillsborough Court administered the oaths of office to this gentleman on Friday last, and this week he holds his first court in the above County. Many friends rejoice in the emanicipation of anxious hope, and this reward of labor is a cheering prospect to those who have labored.

6 Lives Healthily.

See Ad. of C. M. Parks, who knows what advertising means and what it pays. Purchasing large amounts of goods gains out of a stock always kept full and varied. His motto now is a nimble six-pence is better than a slow shilling.

Used his calls.

TO THE YOUTH.

Attention, young men! Is in session Judge Kerr taking his seat on Monday. We will be present at the Court during the week and hope next week to present our readers with some of the proceedings.

A nice little farm.

See Ad. of H. M. Jones Agt. of sale of a nice little farm. It is a nice little bargain. We know the previous well.

A fine lot.

See Ad. of E. J. Parrish of big general Farmer's Warehouse, at Durham on Aug. 10th. This enterprising house has got a bill which will draw. Let everybody interested attend and give encouragement to the enterprise of our own people.

W. A. Williams, &c. co.

See Ad. of this house, as well known to the Merchants of this section. They deserve full patronage from here.

Black Rock & Shingle.

This reliable commission house offers to the cotton Planters and others of this section superior inducements for the sale of their produce, and the furnishing of supplies. We hope their Ad. will attract attention.

The hot and dry weather of last week has given place to a more genial temperature and general calm, in which the heart of the farmer rejoices.

Col. Robert Strange left for Brunswick Court on Monday, where he will enjoy under the judicial administration of Judge McKay some of the fruits of his labors in the overthrow of Judge Bunnell.

Major J. C. Winder has been made General Superintendent of the Fair Grounds during Fair week; a most excellent choice, as few gentlemen surpass him in administrative capacity.

Mr. Johnstone Jones of the Charlotte Observer is present on a visit to Hillsborough. Mr. J. will aid for the present with his pen for the columns of the *Advertiser*, Mr. Turner being absent to carry out his purpose to speak in various parts of the State.

May we not in the most delicate way in the world who the gentleman is that is trying to introduce the Canada thistle among us under the guise of egg plants? Rumor has it, that a certain gentleman in town has undermost careful cultivation in his garden a bed of the obnoxious pest, and passes them off as a new variety of the egg-plant. Or is he a new hand in the garden? Which?

Spots of the Age.

Mr. J. H. Ennis has taken the management of this paper, and we are at once signs of decided improvement. It is still a temperance paper, but it abounds the one ideal system, theism, being to make the "Spirit" a news and family paper of high grade. The prospects of this are flattering, and we commend the paper to the patronage of our friends.

Spots of the Age.

Great preparations are making to secure the success of the coming Fair. Nothing but the pecuniary situation of the country will stand as an obstacle. Even that we may hope will give way before the indomitable energy of Col. Holly, and those in charge of the management.

Let our farmers, mechanics and all give a good account of themselves, and let Orange, as of yore, take a foremost place in the exhibition.

Two much heat.

The Concord says that one of its printers won two hind-quarters of a beef at a shooting match on the premises Saturday.

We much regret apologize for the delay in the issue of that paper owing to the indisposition of one of the printers.

Too much heat.

We notice that the external finish to this building has been given. It really presents a magnificent appearance. The building is a fitting home for the peculiar talent that is exhibited in the accomplished landlord, Mr. Blackwell.

We saw on the H. & G. Railroad a coach turned out of the shop of the Company at Raleigh, which in beauty of finish, smoothness of running and in general elegance and comfort equals anything we have seen, while in economy of work and material of material, we are safe in saying that it surpasses anything purchased in Northern Shop. The Company have turned their attention to this branch of manufacture, and have several more cars of similar character on the stocks.

This car cost about \$3,500, which is a saving to us of between \$600 and \$1,000. But the peculiarity of the transaction is that the money was spent at home, giving employment and pay to the mechanics, and without the import of foreign carriage among our tradesmen. This is the true secret of prosperity.

We do not see why, with the greater cheapness and better quality of material, and other good reasons, the same company does not set upon the hint, and aim at a wider development of that business of car building instead of sending North as far as the Southern habit.

We call attention to the Advancement of this excellent house. Many of our friends will be going North, some of them to stop at Norfolk. To such we commend the National, sure that they will find in our friends the Union. Holt all that is wanted in the landlord, permitting attention, and that personal consideration which is so grateful and flattering to the stranger. And their table is all that the bountiful market of Norfolk can supply. Convenience of rooms, and moderation of charges, give the National advantages which are not equalled by any other house in the city.

W. H. Williams.

C. H. Brown Esq. maintains his high position. The National at present wears an aspect of comfort and quiet that is specially grateful this hot weather. The Colored is making active preparations for a large number of guests next winter. We hope we will be gratified. His table is most excellent, and the general management of the house admirable.

Mr. R. D. Graham, the energetic proprietor of the Atlantic Hotel, Beaufort has been having a visit. The State owes much to Mr. Graham, for his popularizing a watering place within our own borders, and Beaufort henceforth will be regarded as a permanent summer resort for North Carolinians, supplanting Cape May and Long Branch.

This is to be rejoiced at in more than one sense, not the least of which is the preservation of that purity of morals and simplicity of manners for which our State has always been conspicuous, of which she has always been proud, both of which she was in danger of losing by the contaminating influence of advanced modern ideas.

The Cherokee Herald says, now that the election is over, has commenced the discussion of "Our Mountain Railroad Link." We trust the day is not far distant when every portion of our Western North Carolina will be accessible to railroads.

The Concord says that the name of Z. B. Vance for our next Governor.

A terrific storm visited us Wednesday night. The thunder and lightning were fierce, and the rain fell in torrents. - Patriot.

The Tableaux at High Point last Friday night was a success financially and otherwise. - Patriot.

A private letter from Judge Pearson, a gentleman of this place, says his health is entirely restored, and that he was suffering from rheumatism, instead of a diseased kidney. - *Idem*.

Mr. Duncan Cameron returned from Mississippi last week accompanied by his mother, and Mrs. Mrs. E. Collins. He is still quite lame from the effects of a severe knife wound in the thigh, but is otherwise well, and will soon be all right again.

STATE FAIR.

A little and of Mr. Thomas Webb fell from a tree, and broke an arm. Painful it is true, and we regret to chronicle it, but it is the price we often pay for a healthy and athletic manhood.

Accidents.

Mr. Johnstone Jones of the Charlotte Observer is present on a visit to Hillsborough. Mr. J. will aid for the present with his pen for the columns of the *Advertiser*, Mr. Turner being absent to carry out his purpose to speak in various parts of the State.

Spots of the Age.

Mr. J. H. Ennis has taken the management of this paper, and we are at once signs of decided improvement. It is still a temperance paper, but it abounds the one ideal system, theism, being to make the "Spirit" a news and family paper of high grade. The prospects of this are flattering, and we commend the paper to the patronage of our friends.

Spots of the Age.

Great preparations are making to secure the success of the coming Fair. Nothing but the pecuniary situation of the country will stand as an obstacle. Even that we may hope will give way before the indomitable energy of Col. Holly, and those in charge of the management.

Let our farmers, mechanics and all give a good account of themselves, and let Orange, as of yore, take a foremost place in the exhibition.

Two much heat.

The Concord says that one of its printers won two hind-quarters of a beef at a shooting match on the premises Saturday.

We much regret apologize for the delay in the issue of that paper owing to the indisposition of one of the printers.

Too much heat.

We notice that the external finish to this building has been given. It really presents a magnificent appearance. The building is a fitting home for the peculiar talent that is exhibited in the accomplished landlord, Mr. Blackwell.

Mr. John Payne, who resides in Alamance County, was bitten by a copperhead a few days ago, and died a few hours ago.

The friends of Governor Swain and family have been removed to the new cemetery in Hillsborough.

The Journal says our market is glutted with fish. Fine blue fish measuring ten inches are selling at 25 cents per pound.

The mob spirit among the negroes of Hillsborough now exhibited on the most trivial occasions. An ordinary arrest cannot be made by the police without the interference of a crowd of negroes. By the utmost efforts of the police, who was prevented at Wilmington about Saturday night the 10th inst. Our authorities should have known this thing at once.

The ticket office of the North Carolina Railroad at Clayton, was robbed on Thursday the 14th inst. of some \$10, and suspicion pointing to a negro of this city named Dick Crockett, a noted bad character.

Polloman King and Evans on Sunday afternoon overhauled the thief near the depot and at once arrested him. The negro showed fight, and drew a pistol on Chief of Police King, but was fortunately prevented from using it. He is now in the lockup awaiting a trial from the State of Johnston county. - *News*.
